

LINE MOLEING/PIPE CLEANING

CHECKLIST (Automated)

☐ All team members must understand and practice hand signals for “Turn on Water”, “Pressure Up/OK to begin blasting”, and “Cut Pressure”

☐ Understand pipe size and layout

AWD/Safety Device Installation

☐ Proper mechanical attachment to pipe

☐ Installation of guide tube assembly to extend into the pipe

☐ Demonstrates ability to match proper size collet with lance

Lance Drive Installation

☐ Demonstrate proper installation of lance drive to AWD/Safety Device

☐ Demonstrate proper procedure for loading lance

☐ Demonstrate proper installation of collet

☐ Proper connection of control hoses (routed to minimize trip hazards and contamination with hazardous materials)

LINE MOLEING/PIPE CLEANING

CHECKLIST (Automated) – CONT.

Proper Pressure Up/Operations

- ☐ Demonstrative in use of proper hand signals
- ☐ Keeps dump valve activated until proper pressure is attained
- ☐ Tests dump valve before starting to work
- ☐ Demonstrates proper operation including speed adjustment
- ☐ Work in short sections (12"-18") using clean and flush method
- ☐ Demonstrates the ability to manipulate the hose through at least one cycle of cleaning the full length of pipe and return

System Pressure Down

- ☐ Demonstrative in use of proper shut it down hand signal
- ☐ Maintains control of equipment until pump is shut down
